Studio 2021.10.7
Academic Alliance License
User-mode Installation
Expires in 52 weeks

Open

Open a Local Project
Navigate and open an existing project

Clone or Check Out
Open from source control repositories like GIT, TFS or SVN

New Project

Process
Start with a blank project to design a new automation process.

Library
Create reusable components and publish them together as a library. Libraries can be added as dependencies to automation processes.

Test Automation
Start with a blank project to create a new test project

Template
Create a template that you can use to build automations that have a set of predefined common characteristics.

New from Template

Background Process
Create a process that starts in the Background and can run concurrently with other processes for as long as it doesn't use UI interaction.

Mobile Testing Project
Create a project for your mobile app automated test cases

Orchestration Project
Create a project for your mobile app automated test cases
Implement a process through service orchestration and human intervention as well as through long-running transactions
